Yange Kep Bidi

wheelchair access including Cambridge Links alternate routes

Lake Claremont
This 21 ha park includes over 10 hectares of native bushland, offering fabulous bird viewing including the Eurasian Coot.
Photo: Sally Wallace

Perry Lakes
Significant to the Aboriginal people, the lakes were historically used as a fishing hole. Look for the amazingly camouflaged Tawny Frogmouth found here.
Photo: David Free

Freshwater Bay
Situated about 5 km upstream from the mouth of the river at Fremantle, much of the bay's foreshore on the western and eastern sides are limestone cliffs.

Wheelchair accessibility on Yange Kep Bidi

- Yange Kep Bidi
- Alternate Wheelchair accessible route
- ... Sealed sector on western path.
- Crushed Limestone
- Steep Section

Section 1 - LAKE CLAREMONT

Lake Claremont is a wonderful sector abounding in plant life with a strong presence of varied birdlife. To reach the pathway, walk around the building to the north and follow the linking sealed pathway. The section around Lake Claremont excluded is due to the western side pathways being constructed from crushed limestone. They are reasonably level, wide enough for access and fairly even. A short sector of sand pathway on the north western sector can easily be avoided by following the sealed almost parallel pathway shown as green dots.

An enlarged diagram shows the access route around the clubhouse in order to re-join with the Yange Kep Bidi

Whadjuk Trail Network

www.whadjukwalkingtrails.org.au

Section 2 MOUNT CLAREMONT OVAL

A pretty sector of bushland. The path to the west is fairly steep for the sector highlighted in yellow however has no steps and is sealed. The alternate route follows the perimeter of the sports ground re-joining the Yange Kep at Montgomery Avenue, or alternately Montgomery Road can be followed from the intersection of Alfred Road.

Whadjuk Trail Network

www.whadjukwalkingtrails.org.au

Section 3 - HBF STADIUM

Continue straight along the pathway to avoid this short unsealed grass segment. Follow the sealed road to re-join the Yange Kep Bidi near the entrance to Challenge Stadium.

Whadjuk Trail Network

www.whadjukwalkingtrails.org.au

Section 4 - PERRY LAKES

To avoid the grassed unsealed section between Underwood Avenue and the continuation of the Yange Kep within Perry Lakes reserve, link up can be undertaken by following the sealed pathway to the east, re-joining at the Turtle frog interpretive sign.

Whadjuk Trail Network

www.whadjukwalkingtrails.org.au

Section 5- BOLD PARK AQUATIC CENTRE

Crossing Bold Park Drive to the west will take you up a sealed but fairly steep and slightly uneven surface to access the newly re-modelled Bold Park Aquatic Centre. This short stretch is well rewarded with a wonderful sector of bushland followed by a coffee shop and swimming pool. The alternate route to be followed for the Yange Kep Bidi continues north up bold Park Drive to re-connect and continue east at The Boulevard.

Whadjuk Trail Network

www.whadjukwalkingtrails.org.au

Section 6- HERDSMAN LAKE WEST

After crossing Pearson Street, the Yange Kep Bidi enters the fabulous Herdsman Lake sector of the trail hugging the southern banks. This sector's pathway varies between sealed surface and crushed limestone which is fairly even with no steep segments. Lakeside Road along the shore is quiet, however does not have a dedicated pathway. Pearson Street has paved area for the length of this sector. Once re-connecting the Yange Kep at Herdsman Lake Wildlife sector, enjoy the boardwalk which has no steps and is suspended above the water to the east of the centre.

Whadjuk Trail Network

www.whadjukwalkingtrails.org.au

Section 7 - HERDSMAN LAKE EAST

To exit from Herdsman Lake pathway and continue with the Yange Kep Bidi, follow the bitumen driveway turning south along Herdsman Parade near Jukes Way, re-joining the trail towards Lake Monger.

Whadjuk Trail Network

www.whadjukwalkingtrails.org.au

Section 8 - LAKE MONGER

To enter the Lake Monger sector of the Yange Kep Bidi avoiding the unsealed grass portion, continue east along Dodd Street to the parking area. The trail can be joined near the end point and back tracked west.
